

QSES MONTHLY

FEBRUARY

2026

THIS MONTH

We're starting a newsletter !!!

Welcome to the QSES Monthly, the student led newsletter aimed to keep you informed to all things QSE! Our goal is to post information regarding upcoming events, student spotlights, and anything relevant to our members or the quantum world at large. If you have something you found interesting, please reach out to me (Jackson Hanle) or Matt, the QSES president. We want to hear from you!

Social and Outreach Events

This month we will be joining the Dept. of Physics and Astrophysics' graduate student society (PAGSS) for a fun social event. Details are still being sorted, but expect an email from Ranjan/PAGSS in the upcoming weeks! We may also have an outreach event, so look out for an update by Radheya soon!

Looking Back on January

2026 Officer Elections

With the start of the new year, we are pleased to welcome the 2026 officer board! All the officers, both new and returning, look forward to a busy year of exciting events and spirited speakers. We hope you will join us as QSES continues to grow!!

Building Gingerbread Houses

In the spirit of the holidays, some of our QSES members built gingerbread houses!

Want to join us next time we do something fun like this? Make sure to check your emails and RSVP!

Meme of the Month

Want your meme featured in next month's newsletter? Email jhanle@udel.edu

Within the department:
